

*This Christmas give a gift  
that matters.*

*Sow hope into the life of  
a deserving woman.*

This Christmas give a gift that will change a life and make the world a better place.

Sow Hope funds projects in wellness, education and economic opportunities for the world's most needy and deserving women.

Your gift of **\$5** will completely cover the cost for one Egyptian woman to attend a wellness training seminar and luncheon where she will learn about AIDS prevention, sexually transmitted diseases and women's health issues. **Total project: 1000 young women. \$5,000**

A gift of **\$25** will help provide a woman in Bangladesh with a microloan to begin an entrepreneurial business that will enable her to provide for her family and improve her community. Last year we gave the first of three installments – \$20,000, to the Barisal district. Approximately one third of last year's micro loan recipients were affected by the recent cyclone. This year, our project will include additional funds to assist them in their recovery, as well as provide micro loans to 1,000 additional deserving women. **Total project amount for this year: \$30,000.**

Your gift of **\$30** will provide one woman in India with literacy training that will open doors of opportunity for employment and economic advancement. **Total project: 1500 women. \$45,000**

For a memorable gift with world-wide impact, please use the form below or visit our website at [www.sowhope.org](http://www.sowhope.org) and click on "Donations" where you will find gift certificates available for printing and use in your holiday giving.

**SOWHOPE**

Sharing  
Opportunities  
with  
Women

*"Poor women had the  
vision to see further  
and were willing to  
work harder to get out  
of poverty because they  
suffered the most."*

– Muhammad Yunus, 2006 Nobel Peace Prize winner and original architect of the micro loan concept, on why he chose to loan to women over men.
